PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in full-stack web development and backend architecture using Java, Spring Boot, and the MERN stack. Proficient in designing scalable RESTful APIs, securing enterprise applications, and managing relational and non-relational databases. Strong problem-solving skills with 200+ LeetCode challenges solved, focusing on optimal data structures and clean code design.

TECHNICAL SKILLS

Languages:	Java, JavaScript, SQL, C++
Backend:	Spring Boot, Node.js, Express.js, RESTful APIs
Frontend:	React.js, Redux Toolkit, Tailwind CSS, Bootstrap
Databases:	MongoDB, MySQL, PostgreSQL
Cloud & Tools:	AWS, Git, GitHub, Cloudinary, Razorpay, Figma
Core Concepts:	Data Structures & Algorithms (DSA), OOP, DBMS, System Design Fundamentals

KEY PROJECTS

ShopNest – Full-Stack E-Commerce Platform

Technologies: MERN Stack, React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Razorpay, Cloudinary

- Engineered an end-to-end e-commerce application featuring product search, shopping cart management, seamless checkout, and real-time order tracking.
- Implemented secure user authentication and authorization using JSON Web Tokens (JWT), bcrypt password hashing, and Role-Based Access Control (RBAC).
- Integrated Razorpay payment gateway API for online transactions and Cloudinary/Multer for cloud media storage management.

Breed Detection System (Cattle & Buffalo)

Jan 2026 – Mar 2026

Technologies: Express.js, Node.js, MongoDB, React.js, TensorFlow.js, REST APIs, Figma

- Architected a web application leveraging client-side TensorFlow.js models for real-time livestock breed classification.
- Designed modular RESTful APIs to connect user-uploaded image streams with backend classification logging.
- Prototyped clean, user-friendly interfaces in Figma designed specifically for non-technical agricultural field users.

EXPERIENCE

Open-Source Contributor

Sept 2025 – Dec 2025

GitHub

- Contributed to backend development by optimizing database queries and refactoring API endpoints for enhanced throughput.
- Followed collaborative Git/GitHub workflows including pull requests, detailed code reviews, and issue tracking.

College Event Coordinator

Nov 2025

Bansal College of Engineering

- Coordinated logistics and vendor operations while leading cross-functional teams to successfully execute college events.
- Demonstrated leadership, negotiation, and conflict resolution skills under tight timelines.

EDUCATION

B.Tech in Computer Science & Engineering

2023 – 2027

Bansal College of Engineering, Indore

CERTIFICATIONS & ACHIEVEMENTS

- LeetCode:** Ranked in Top 20% globally with 200+ problem-solving achievements in algorithms and data structures.
- ServiceNow Certification:** Completed the AI-Agent's Course certification via ServiceNow University.
- Hackathons:** Participated in Smart India Hackathon (SIH) and internal college-level engineering rounds.
